

I listen to K-Love radio on station 106.7 in the Raleigh-Durham, NC area. It is the only station in my listening area that I consider completely family friendly. It seems other stations have become increasingly sexually explicit in their music selections, talk shows and commercials. K-Love also provides lots of information re free community events that is timely and helpful. It would be a great loss to our community if our K-Love station at 106.7 were to be displaced by a LPFM broadcaster providing other programming.
